

SOMETHING DIFFERENT

EXCEL

A BRIEF INTRODUCTION TO US

Family run Excel have been a manufacturer and supplier to trade and retail customers in the UK and Ireland since early 2005. This may be the first time you've heard of us but we have always been right here in Huddersfield - an area steeped in history for textile manufacturing, making blinds and window furnishings to the highest standard; relentless in the pursuit of excellence and innovation.

Our extensive range is made to order in our 35,000sq foot state of the art factory with a dedication to quality both in the individuality of our service to you and in the precision and attention to detail of our production processes. Rest assured, an excel blind is sure to leave a lasting impression.

WHAT MAKES US DIFFERENT?

All our window furnishings are made to measure but we love an extra challenge. Those unusual, seemingly 'impossible' requests and one off special designs are our speciality and we're always happy to work cooperatively to achieve your every vision, offering a truly tailored service.

We only use the best components and fabrics available from recognised partners and our core products such as Vertical, Roller and Venetian blinds are all made with the same exceptional quality as our custom ones - something our existing customers can attest to but it is our personal approach and passion that we believe really sets us apart.

DIGITAL PRINT

This is where the fun really starts, digital print gives you the opportunity to be completely unique - any image, branding or artwork* can be printed onto a roller, venetian or panel blind.

For you, the design options are limitless. Create bespoke patterns, use striking photography or illustration for statement windows and literally offer your customers *anything* that can be imagined!
